These are the questions that need to be answered when submitting a project

1. Please enter the project timeline (start/end dates + specific events and milestones); please use one line per entry, for example "15 February 2017-initial Skype meeting")

2. What specific outcomes can be expected from this project?

3. Sustainability of collaboration beyond funded term (with potential development of joint activities such as joint teaching programs, institutionalized research collaboration etc.)

4. Proven collaboration track record and foundation for future collaboration, including new joint research projects

5. Strategic importance for the institutions and entities involved

6. Added academic value and scientific reputation of the PIs and benefit to the respective institutions
